About Trade Expo Indonesia

For the past few years, Indonesia has achieved a positive trend of export growth in a variety of products and services to the global market, which has to be both maintained and improved further, because Indonesia is also competing with other countries in exploring global opportunities.

To keep on improving national export performance, the Ministry of Trade has been proactive in inviting and bringing in buyers and investors for a direct deal with Indonesian providers of export products and services at the annual tradeshow of Trade Expo Indonesia (TEI).

TEI is an international B2B-focused tradeshow that is designed to boost export product growth and export market expansion. The TEI brings up the theme "Moving Forward to Serve The World" to promote quality products made in Indonesia for the global market, develop business networks, investment and present showcases of Indonesian premium and best products.

Along with the exhibition, TEI also presents a series of parallel activities consisting of Trade, Tourism and Investment Forum, Business Matching, Business Counselling, Regional Discussion, Overseas, and Local Trade Mission, Export Start-Up Competition and Talk Show.
